Silence 4, We

She doesn't know how much she helped me to grow And the words are lost in my mouth

She taught me to look inside myself and she Doesn't know how much I hurt myself

She and Me Me and She We aren't we Anymore

She and me, we don't much, it's true We just don't talk, that isn't new

She doesn't know how happy she makes me when she Talks to me, i fly away

She and Me Me and She We aren't we Anymore
