

Simple Plan, Opinion Overload

So you think you've got me figured out
Won't you go ahead and tell me what I'm all about
You know I'm dying to hear it

I'm getting' sick of all the sticks and stones you throw
Now it feels like it's opinion overload
I can take it but I'd rather leave it

Get out of my face!
Quit bringing me down
I don't care what you say
So what part of that don't you understand?

Hey!
I'm doing things exactly like I want to
What part of that don't you understand?
Hey!
And I don't give a damn if you won't approve
What part of that don't you understand?
Hey!

Stop throwing punches with your words
You think you're clever
Let me tell you that you're not the first
Say something I haven't heard yet

You're always quick to judge
I kind of wonder if you're doing it just because
It must be nice being perfect

Get out of my face!
Quit bringing me down
I don't care what you say
So what part of that don't you understand?

Hey!
I'm doing things exactly like I want to
What part of that don't you understand?
Hey!
And I don't give a damn if you won't approve
What part of that don't you understand?
Hey!

I won't apologize for what I feel inside
I won't be pushed around
I won't be back and down
Not doing what you say
I'll never change my ways
Get out of my face!

Hey!
I'm doing things exactly like I want to
What part of that don't you understand?
Hey!
And I don't give a damn if you won't approve
What part of that don't you understand?
Hey!
