

# Simply Red, The World And You Tonight

Don't rush around  
The world will wait for you  
And too much time is lost  
On all the things we have to do

There's nothing more important baby  
Right now than you and me  
So come a little closer darling  
And turn the lights down low a key

And life could be so wonderful  
A perfect home and a family  
When you're lying next to me  
I'm everything I want to be  
With the world and you tonight  
With the world and you tonight

With you my love

The world's a better place  
And every day with you  
Will hold a treasured memory

Your embrace  
Could steal me forever  
And nothing else matters  
When I hold you in my arms

And life could be so wonderful  
A perfect home and a family  
'Cos you are everything to me  
I'm the lock and you're the key  
To the world and me tonight  
To the world and me tonight  
It's the world and you tonight  
You are my world  
With the world and me tonight
