

# Sins Of Thy Beloved, A Tormented Soul

My own little world I hide away  
I feel no pain I hide away  
Never to talk  
And never to walk no more

This is my fate this is my choice  
I have ruined your life  
Never to talk  
And never to walk no more

I've played like a fool  
This is my life  
I take it all back  
Never to talk  
And never to walk no more

I vanish through the night  
I travel through my life  
I am sinking in the earth  
Never to talk and never to walk no more  
In the shadows of a tormented soul  
There conceals a murky threshold  
Eldritch phantasm reveals  
The yearning for infinitude invades

My beloved tremble in fear  
My detest against thee who's a plagues

Finally there is peace in thine soul  
My resurge will reveal ye fate  
In the misty twilight I appear  
Invisible I conquer

Solely I fade with the winter  
Solely I reveal my secrets  
Infinitude I conceal in thy phantasm  
Infinitude my phantasm is of thee  
In my grandeur I proceed my voyage  
In my grandeur my resurge is of thee  
My resurge will sway through dimensions  
My resurge will reflect thine demeanour
