Siouxsie and The Banshees, Take Me Back

deep in the heart
of a seething beast
think of bright lights
a splendid feast
but something's missing
she's feeling low
something's missing
she's going home

take me back -- I'm feeling low take me back -- I'm going home take me back -- I'm so alone take me back I'm travelling home

suspicious stranger there's something wrong she is changed ah but this is not

she is back but she's not home she is back but she's still alone she came back after all this time she came back to warning signs all is black when the lights are on nothing rhymes its been so long

deep in the heart of a seething beast think of bright lights a splendid feast where you arrive can be home where you come from isn't always home

take me back -- I'm coming home take me back -- where I belong take me back I'm leaving home take me back I'm coming home
