

# Sisters Of Mercy, Some Kind Of Stranger

And yes I believe in what we had  
But words got in the way  
And only yesterday  
As I was leaving  
Lord knows I've tried to say but I've  
Heard a million conversations  
Going where they've been before  
Seen the way that careful lingers  
Undecided at the door

## CHORUS

And all I know for sure  
All I know for real  
Is knowing doesn't mean so much  
When placed against the feeling  
The heat inside  
When bodies meet  
When fingers touch

All my words are secondhand and  
Useless in the face of this  
Rationale and rhyme and reason  
Pale beside a single kiss  
And I've heard so many things I  
Fail to understand at all  
I'd settle anytime for  
Unknown footsteps in the hall outside

## CHORUS

Because the world is cruel and  
Promises are broken  
Don't try to tell me  
Anything don't try to tell me  
You'll be true to me you know the  
Real truth is never spoken  
And I know the world is cold but  
If you hold on tight to what you  
Find you might not mind too much though  
Even this must pass away and  
Memories may last for years but  
Names are just for souvenirs  
Some kind of angel let me  
Look into your eyes  
Don't give me whys and wherefores  
Reason or surprise  
I don't care for words that don't belong  
And I don't care what you're called  
Tell me later if at all  
I can wait a long long time  
Before I hear another love song

Come here I think you're beautiful  
My door is open wide  
Some kind of angel come inside

Come here I think you're beautiful  
I think you're beautiful beautiful  
Some kind of angel come inside

Come here I think you're beautiful  
I think you're beautiful  
Some kind of angel come inside

Come here I think you're beautiful  
My door is open wide  
Some kind of stranger come inside

Come here I think you're beautiful  
I think you're beautiful beautiful  
Some kind of stranger come inside

Come here I think you're beautiful  
I think you're beautiful  
Some kind of stranger come inside

(repeat last three verses to fade)
