

Sisters Of Mercy, Will I Dream

Something will happen here
I can feel it
On the howling edge of pink and white and blue
Something, right here
I can feel it
And now it's just too real to
Still believe in you

And will I ...dream?
When it's over will I dream?

When it's over will I?
When it's happened will I?
When it's over will I dream?

Something is happening here
I can feel it
On the howling edge of pink and white and baby -
Will I ...dream?
When it's over will I dream?

When it's over will I?
When it's happened will I?
When it's over will I dream?

Something has happened here
I can feel it
On the howling edge of pink and white and steely blue
Something, right here
I can feel it
And now it's just too real
To will belief in you

And will I ...dream?
When it's over will I dream?

When it's over will I?
When it's happened will I?
When it's over will I dream?
