

# Skeeter Davis, Down From Dover

I know this dress I'm wearing doesn't hide the secret I have tried concealing  
When he left he promised me that he'd be back by the time it was revealing  
The sun behind a cloud just casts the crawling shadow o'er the fields of clover  
And time is running out for me I wish that he would hurry down from Dover  
He's been gone so long when he left the snow was deep upon the ground  
And I have seen a spring and summer pass and now the leaves are turning brown  
And any time a tiny face will show itself cause waiting's almost over  
But I won't have a name to give it if he doesn't hurry down from Dover  
My parents didn't understanding when they found out they sent me  
From the home place  
My daddy said if folks found out he would be ashamed to ever show his face  
My mother said I was a fool and she did not believe me when I told her  
But everything would be all right cause soon he would be coming down from Dover

I loved him more than anything and I could not refuse him when he needed me  
He was the only man I'd loved and I just can't believe that he was using me  
He couldn't leave me here like this I know it can't be so it can't be over  
He wouldn't make me go through this so long he'll be coming down from Dover  
My body aches the time is here it's lonely in this place where I'm lying  
Our baby has been born but something's wrong it's much too still I hear no crying  
I guess in some strange way she knew she'd never have a daddy's arms to hold her  
And dying was her way of telling me he wasn't coming down from Dover
