

# Skeeter Davis, I'll Never Love Another

I'll never love another now that you've gone away  
And left me here to grieve dear all alone  
It seems I always lose my dear no matter how I try  
I'll never love another until the day I die  
I'll never love another now that you've proved untrue  
Without your lovin' darling what am I to do  
I spend my life for you dear now you've left me blue  
I'll never love another if I can't have you

[ fiddle ]

My castles now have tumbled that we have built for two  
And all my dreams have vanished dear with you  
I'll find no one to take your place so I'll now even try  
I'll never love another until the day I die  
I'll never love another...

[ steel ]

Now you don't know my heartaches that you caused me to bear  
Or you would not have gone away from me  
I'll have to live my life alone and think of days gone by  
I'll never love another until the day I die  
I'll never love another...
