

Skeeter Davis, I Won't Be Hanging Around

From now on I won't be hanging around from now on I won't be hanging around
I've taken all I can so you can't be my man from now on I won't be hanging around

It's a long time I waited my darling just hoping someday you'd settle down
But now it's too late it's all over from now on I won't be hanging around
From now on I won't be hanging around...

[banjo - dobro]

I've tried and I've tried make you love me but night life and bright lights you found
It's the only love you'll ever know my darlin' so from now on I won't be hanging around
From now on I won't be hanging around...
From now on I won't be hanging around
