

Skid Row, Another Dick In The System

Im not the devil
But I can show my horns
All the things I did to you
Could have been in a porn
Then I heard the rumors
Now I know theyre true
Some strange motherfucker
Is gonna do em to you

I said I loved you but you didnt listen
I know theres another dick in the system
I said I loved you but you didnt listen
I know theres another dick in the system

Ive lived with angels
Ive laid with whores
I gave you nothing but honesty
Then I licked your sores
Im not the one to crucify
With blood, iron and wood
Youre not the saviour to me anymore
Youre damaged goods Yeah

I said I loved you but you didnt listen
I know theres another dick in the system
I said I loved you but you didnt listen
I know theres another dick in the system

I said I loved you but you didnt listen
I know theres another dick in the system
I said I loved you but you didnt listen
I know theres another dick in the system
Hey Hey
