

# Skid Row, Love Is Dead

I've fallen for and fought the wars with you  
And held my breath until I'm gray  
I choke myself until my skin turns blue  
On words I never got to say

Feed me, bleed me  
I don't care

I can't keep what I don't want  
A ghost needs a house to haunt  
Black holes inside your head  
Burns quick the turns to red  
Close the lid, drive the nails  
Bury me, cause love is dead

No soul to sell, I've been through hell with you  
Then left our love outside to freeze  
We'd die in bed then you threw dirt on me  
And burn me out like a disease

Thrill me, kill me  
I don't care

I can't keep what I don't want  
A ghost needs a house to haunt  
Black holes inside your head  
Burns quick the turns to red  
Close the lid, drive the nails  
Bury me, cause love is dead

I choke myself until my skin turns blue  
On words I never got to say

Thrill me, kill me  
I don't care

I can't keep what I don't want  
A ghost needs a house to haunt  
Black holes inside your head  
Burns quick the turns to red  
I can't keep what I don't want  
A ghost needs a house to haunt  
Black holes inside your head  
Burns quick the turns to red  
Close the lid, drive the nails  
Bury me, cause love is dead
