Skin, Getting Away With It

Ive been walking in the rain Just to get wet on purpose Ive forcing myself Not to forget that i feel worse Ive been getting away with it All my life Getting away with it All my life

However i look its clear to see I love you more than You love me

I hate that mirror It makes me feel so worthless Im an original sinner But when im with you I couldt care less

Ive been getting away with it All my life Getting away with it All my life
