

Skinlab, Dissolve

It's not what they call you, it's what you answer to

Just because I'm suffering through and through
Yeah, I've been floating my whole life
The only thing you've done to me
Is partening us to make me stronger

I'm like a newborn child that you have never seen
Like a newborn child that you have never believed

It's not what they call you, it's what you answer to
You're suffering through and through
You make me dissolve

Dissolve
Dissolve
Dissolve
You make me dissolve

I'm like a newborn child that you have never seen
Like a newborn child that you have never believed

You're suffering through and through
You never promised, did you?
Oh, the bottom is you're fucking cruel
What kind of father were you?
I dissolve

Look what you've done to me
Like I believe in you
Look what you've done to me
Look what you've done to me
Look what you've done to me

Just because I'm suffering through and through
Yeah, I've been floating my whole life
The only thing you've done to me
Partening us to make me stronger, yeah!

Dissolve
Dissolve
Dissolve
You make me dissolve

It's not what they call you, it's what you answer to
You make me dissolve

Dissolve
Dissolve
Dissolve

What kind of father were you?
You!
