

Skrape, Isolated

I feel no pain
I walk right through
A no where man
Learned from you

You get the one that you wished for you laugh to cry
I guess the one that you wished for has made you cry

I told you, some way
So quick to rename

Isolated

My grip is good
I fall to stand
A smile that could
Screams out a plan

You get the one that you wished for you laugh to cry
I guess the one that you wished for has made you cry

I told you, someway
So quick to rename
You're weary, no soul
So quick to, rename

Some pills'll getcha (x7)

Yeah (x4)

I told you, some way
So quick to rename
You're weary, no soul
So quick to rename

Isolated (x4)
