

# Skrewdriver, Justice

My knees feel weak as I'm dragged from the dock  
My poor mother's screams numb me with shock  
One by one, they lock us all away  
Trumped up charges is the game they play

Chorus:

Call that justice, well it just ain't fair,  
How much longer before you care  
Call that justice from an alien judge  
Jailed for fighting for the land you love

Stripped in a cell, you're shackled in chains  
Lost all your dignity, but trying to keep sane  
A degrading regime if you speak your mind  
If you don't agree they'll give you time

(Repeat Chorus)

Call this democracy, the land of free speech  
Equality and freedom is what they preach  
Here's the reality, an alien state  
Locking up patriots behind camp gates

(Repeat Chorus)

Jailed for fighting for the land you love  
Jailed for fighting for the land you love
