

# Skrillex & Rick Ross, Purple Lamborghini

Biggest boss and I been the trillest  
I'm a bigger problem when I click with Skrillex  
Murder on my mind, it's time to pray to God  
My revolver is that religion's the revolution's bond  
You wanna know my name then go and tell them Sarg?  
You wanna know my gang, Suicide Squad  
Pistol on my waist, I might make a mistake  
Dead shot, head shot, oh my god, am I crazy?  
Drugs every corner, this is Gotham City  
Killer Croc came to kidnap you, to cut out your kidney  
Ain't no mercy, got that purple Lamborghini lurking  
Rozay! don't you know that pussy worth it  
Flooded Rolex at the Grammy awards  
They still selling dope, that's those Miami Boys  
Killers everywhere, it ain't no place to run  
Forgive me for my wrongs, I have just begun

Ain't no mercy, ain't no mercy  
Got that purple Lamborghini lurking  
Ain't no mercy, ain't no mercy  
Got that purple Lamborghini lurking

Rozay!  
Don't be beggin' for your life cause that's a lost cause  
High stakes, body armor, suicide boy  
There's a time for games and there's a time to kill  
Make up your mind baby, there's no time to chill  
Capital murder, capital lettuce  
Yes, she catching my vibe but can't fathom my cheddar  
Need a couple gang members for these new endeavors  
From this point on whenever we do, we do together  
Body on the corner, million in the trunk  
Seven figures, I will spend that every other month  
Killers on the corner, talons in the clip  
Villa Palisade and Paris just to fill with bitches  
Say my name and I'm coming with the gun squad  
Everybody running, homie, there's only one God  
Cocaine, white Ferrari, I'm in the fast lane  
Every day was life and death, that's when the cash came  
Count money, drug residue even blood on them  
He had a driver 'til I put my coz on it  
Kicking in the dope boy, Suicide Squad  
Needle in my arm so I'm do or die for it

Ain't no mercy, ain't no mercy  
Got that purple Lamborghini lurking  
Ain't no mercy, ain't no mercy  
Got that purple Lamborghini lurking  
Rozay!

Rozay!

Forgive me for my wrongs, I have just begun  
Rozay!
