

Slade, Nut Bolts And Screws

Roll it on, roll it on!

Go funny family go home, Joey's sittin there on his own
Sittin there a missin' - missin all the kissin'
Wishin' that he wasn't alone

I heard it on the news - I heard it on the news - nuts bolts and screws - I heard it on the news
I heard it on the news - I heard it on the news - nuts bolts and screws - I heard it on the news

All of the cuckoos at breast - one flies away from the nest
Finds himself a cutie, a root'n toot'n beauty - she made the hairs stand up on his chest

I heard it on the news - I heard it on the news - nuts bolts and screws - I heard it on the news
I heard it on the news - I heard it on the news - nuts bolts and screws - I heard it on the news

All he needed was a little bit of company
Just to help take away some of the misery
All he wanted was a little bit of ecstasy
And he's surely gonna find it, surely gonna find it

Joey got a shot in the arm
And now he's sleepin' back at the farm
Still knows he can do it, I guess he always knew it
He never done nobody no harm

I heard it on the news - I heard it on the news - nuts bolts and screws - I heard it on the news
I heard it on the news - I heard it on the news - nuts bolts and screws - I heard it on the news
I heard it on the news - I heard it on the news -
