

Slapp Happy, Small Hands Of Stone

Small hands of stone
All on my own
With the glow you gave
The sound of the snow
As beams stream between us
See my hands grow
In a spoon
By your window
Can't catch me
Cause I'm on my way now
Any day now
You'll make the change
From day to day
If I had my way
Oh babe, I'd stay here forever
But side by side
We could never be together
