

Slash, Whatever Gets You By (feat. Myles Kenne

Double crossed in a single day
Doubled down I was on my way
Had to do what I done to just get by

Took it all never gave a damn
Easy living that was never the plan
Now I'm thinking that I need to take a little time

I don't care honey anymore
Shake it out like a paramour
With a kiss and wink
And let it slide, oh

Because time will tell when this all could blow
Yeah you know in time we all have to go
Time will tell baby now you know
There's no fighting time just enjoy the show

Whatever gets you by
Whatever gets you by

I'm fool for your misery
Like a drug lying next to me
I'll consume what you give to get me high

I don't care honey anymore
Shake it out like a paramour
With a kiss and wink
And let it slide, Oh

Because time will tell when this all could blow
Yeah you know in time we all have to go
Time will tell baby now you know
There's no fighting time just enjoy the show

Whatever gets you by
Whatever gets you by

Because Time will tell when this all could blow
Yeah you know in time we all have to go
Time will tell baby now you know
There's no fighting time just enjoy the show

Whatever gets you by
Whatever gets you by
Oh, whatever gets you by

Yeah, woo
