

Slash, World On Fire

Well they say that we are tragic
And they say we're born to lose
You're the misfit
I'm the sinner
You're the heathen
I'm the fool
What's the day you'll be the master or the slave its up to you
Or my beautiful disaster, take me anyway you choose
Don't fight it
Ignite it!
This much I'm sure

I think its time you set this world on fire
(world on fire)
I think its time to push it to the edge
(to the edge)
burn it to the ground and trip the wire
(just trip the wire)
You may never be this good again

It's like a new religion speaking songs
come see the light
To my trip on inhibitions that will only waste my time
Let me tempt you with the evils of the flesh and so much more
Like a Babylon redeemer, like a pusher, like a whore
Just try it
You'll like it
I'll give you more

I think its time you set this world on fire
(this world on fire)
I think its time to push it to the edge
(to the edge)
burn it to the ground and trip the wire
(just trip the wire)
You may never be this good again

It's so dark I can't see
All the truth inside us
All I want is to feel something
That's real before the end
Close the door
Turn the key
Do you like
What you see
Throw the lights
Oh come to me
Set it off tonight
But we just have fun with gasoline?

I think its time you set this world on fire
(world on fire)
I think its time to push it to the edge
(to the edge)
Life's so fucking bored so trip the wire
(just trip the wire)
You may never be this good again

Just trip the wire
(just trip the wire)
this worlds on fire
(this worlds on fire)
just trip the wire
(just trip the wire)

you may never be this good again
