

Sleater-Kinney, O2

I wanna run away
I wanna get away
but I will never get up
oh won't you help me up

I rely on oxygen
I depend on the bitter snow
I rely on oxygen
I depend on the bitter cold

I want to know
why it hurts to stay
and hurts to go away
will I be ok?

Crawled out of the mud
this filth you called your love
slept for countless days
but I will be ok

I wanna run away
I wanna get away
but I will never get up
oh won't you help me up

I rely on oxygen
I depend on the bitter snow
I rely on oxygen
I depend on the bitter cold

I didn't know I could feel this low
so afraid that I'll watch you go
I didn't know I could feel this low
so afraid that I'll watch you go

Take my strength out
but I'm not down
Write this reverse
I'm not down

I wanna run away
I wanna get away
but I will never get up
oh won't you help me up

Take my strength out
but I'm not down
Write this reverse
I'm not down
