## Sleeping With Sirens, Roger Rabbit

Is there a right way for how this goes You've got your friends And you've got your foes They want a piece of something hot Forget your name like they forgot

## Ain't that something

So when I see you crash and burn I criticize your every word I'm trying to keep from going insane Ain't that the way of this whole damn thing

Trying to be something..

## more

Nobody's gonna love you if You can't display a way to capture this Nobody's gonna hold your hand And guide you through No it's up for you to understand Nobody's gonna feel your pain When all is done and it's time for you to walk away

So when you have today You should say all that you have to say

Say all that you have to say

Is there a right way for being strong Feels like I'm doing things all wrong Still I'm here just holding on Confess my heart and forgive my wrongs

Just trying to show you something.. More

Nobody's gonna love you if You can't display a way to capture this Nobody's gonna hold your hand And guide you through It's up for you to understand Nobody's gonna feel your pain When all is done And it's time for you to walk away

When you have today You should say all that you have to say

Don't point the blame when you can't find nothing Look to yourself and you might find something It's time that we sorted out All of the things We complain about

So listen close to the sound of your soul Take back a life
We led once before
If it ain't you then who
If it ain't you
Then who's gonna love you

Nobody's gonna love you if you can't display a way to capture this Nobody's gonna hold your hand And guide you through It's up for you to understand Nobody's gonna feel your pain When all is done And it's time for you to walk away

When you have today You should say all that you have to say

So when you have today Say all that you have to say
