

Smashing Pumpkins, The Celestials

On the day that you were born
They built an empire off a scream
I can't explain
Endlessly they'll set you free
Give you reason to believe
This empty place
I may seem unafraid
And i may seem unashamed
But i will be special key
Never let the summer catch you down
Never let your thoughts run free
Even when their numbers draw you out
Everything i want is free
Till the end
Till the end
Till the end
I'm gonna love you 101 percent
I'm gonna love you till this ends
Take a chance if you should go
Face upon your happy home
The scanners wait
Selfishly they might concede
You were always on your own
You cant escape
I may seem unafraid
And i may seem unashamed
But i will be special key
Never let the summer catch you down
Never let your thoughts run free
Even when their numbers draw you out
Everything i want is free
You're not me and never ever will you be
I'm gonna find you and never run against
I'm gonna find you till the end
Till the end
Till the end
Never let the summer catch you down
Never let your thoughts run free
Even while their numbers call you out
Everything I want is free
Everything I want is free
Everything I want is free
Everything I want is free
Free you're free with me
Free you're free with me
You're free with me
