Smashing Pumpkins, The Celestials

On the day that you were born

They built an empire off a scream

I can't explain

Endlessly theyll set you free

Give you reason to believe

This empty place

I may seem unafraid

And i may seem unashamed

But i will be special key

Never let the summer catch you down

Never let your thoughts run free

Even when their numbers draw you out

Everything i want is free

Till the end

Till the end

Till the end

I'm gonna love you 101 percent

I'm gonna love you till this ends

Take a chance if you should go

Face upon your happy home

The scanners wait

Selfishly they might concede

You were always on your own

You cant escape

I may seem unafraid

And i may seem unashamed

But i will be special key

Never let the summer catch you down

Never let your thoughts run free

Even when their numbers draw you out

Everything i want is free

You're not me and never ever will you be

I'm gonna find you and never run against

I'm gonna find you till the end

Till the end

Till the end

Never let the summer catch you down

Never let your thoughts run free

Even while their numbers call you out

Everything I want is free

Free you're free with me

Free you're free with me

You're free with me
