

Smoking Popes, Sweet Pea

her shining diamond smile
is white and wild as the ocean
she declines the words
that fail to capture her
my sweet pea
she's my sweet pea, yeah

how completely mine can she be
yes is the answer
all the way and beyond
into eternity with my sweet pea
she's my sweet pea

just when I was on top of my game
I was totally put to shame
but I can't quit now

what can I do girl
I'm in over my head with you
you've turned my blood from red to blue
and it's pumping just for you
you're my sweet pea
my sweet pea, yeah

now I'm waiting to be told
she wants to hold me tonight
she belongs beside me
that's the way it ought to be
my sweet pea
she's my sweet pea, yeah

just when I was on top of my game
I was totally put to shame
but I can't quit now

what can I do girl
I'm in over my head with you
you've turned my blood from red to blue
and it's pumping just for you
you're my sweet pea
my sweet pea, yeah
