

Smolik, Close your eyes

Did you ever let yourself
Fall and loose your faith
Hey take my hand, don't let me wait
Lets take a ride, vanish into world
Close your eyes be a child
for a while, for a while
Close your eyes, free your life
From the sky, all looks fine
Day by day your arms upon
There's no time to start
Hey take my hand, don't let me wait
Lets take a ride to vanish into world
Close your eyes, be a child
For a while, for while
Close your eyes, free your life
From the sky, all looks fine
Close your eyes
uuuuuuuuuu
Your eyes
Hey, take my hand, don't let me wait
Lets take a ride to vanish into world
Close your eyes, be a child, for a while, for a while
