

# Sneaker Pimps, 6 Underground

(A one, two)

Take me down,  
6 underground, the ground beneath your feet (A one, two)  
Laid out low  
Not meant to go  
No where or way to meet (A one, two)  
I've got a head full of drought  
Down here  
So far off from losing out  
Round here  
Overground  
Watch this space  
I'm open...to falling from grace

Calm me down  
Bring it round  
To way high off your street (A one, two)  
I can see  
Like nothing else  
In me you're better than I wanna be  
Don't think cuz I understand  
I care  
Don't think cuz I'm talkin'  
We're friends  
Overground  
Watch this space  
I'm open...to falling from grace

Talk me down  
Safe and sound  
Too strung up to sleep (A one, two)  
Wear me out  
Scream and shout  
Swear my time's never cheap (A one, two)  
I fake my life like I bleed  
Too much  
I'll take whatever you're givin'  
Not enough  
Overground  
Watch this space  
I'm open  
I fake my life like I've lived  
Too much  
I'll take whatever you're givin'  
Not enough  
Overground  
Watch this space  
I'm open...to falling from grace
