

# Sneaker Pimps, Think Harder

Drinking enough to knife to death the dumb down  
Drinking yourself to death am I in touch now

You ask me how to cure your headache, use a gun  
If you think you're doing something special, it's been done  
So just think dumb

Think harder, sip up, sick up, your life just think dumb  
Think harder, sip up, sick up, your life just think dumb  
Think harder, sip up, sick up, your life just think dumb  
Think harder, sip up, sick up, your life

Don't leave me out the sure to itch in your opinion  
The louder they come the thicker they are so dream on

If you think you got style in your limo to a club  
You may feel like a kick but the coma looks more fun  
So just think dumb

Think harder, sip up, sick up, your life just think dumb  
Think harder, sip up, sick up, your life just think dumb  
Think harder, sip up, sick up, your life just think dumb  
Think harder, sip up, sick up, your life
