

# Snoop Dogg, Thug Life (Ft. Spanky Danky & Wes

Why is there suddenly a nigga trippin' when I do it?  
Why do everybody else gon' have a war, have beef  
Within the music, talkin' about differences and it's ok  
It's music it's hip-hop it's groundbreaking  
When I do it, it's war

[West West Cuh:]

In the city watch how I'm getting head with it  
She do it with no hands and I be ghost whippin'  
Oops I think I meant ghost riding  
When I get that vet watch how she let me slide in  
In that pussy and you know I'm the livest  
Introduced known to beat it up no crime man  
And I might leave your bae crying  
I'm so stressed out man all the homies fall in  
And if she let me hit, the homies all can  
And they get if I'm eating it's only one pay  
Cause I'mma be as hungry as the last man  
A young [?] but I'm the nigga with the damn plan  
I keep it G like a crip in the '80s  
And then I beat your ass like a nigga in slavery  
They say they're trying to help me but it sound like hate to me  
A young nigga, but I'm wise like Dr. King  
On my own shit, get your own ways  
Niggas think they gettin' handouts cause we damn friends  
Nigga put that spoon down better use your hands  
Better get that grind right before you life ends  
And I ain't never had no love for a fake friend  
Or a fuck nigga, better duck nigga  
Better hope one of them things don't get stuck in ya  
(Bbbbla) good luck nigga

Slip this with the crip stick  
Getting any nigga with the slick shit  
In a room full of misfits  
Plug it in get that thing yea my shit bitch  
Get bread like bisquick  
You're a soft ass nigga with a face full of lipstick  
Let me show you how a crip dip  
Get ships and flips and take low trips  
I sipps that shit ain't talking 'bout lean  
Down to Mississippi and New Orleans  
Word is a motherfucka, let me verb that  
Snoop Dogg is a hog, yea I heard that  
You deserve that swerve that 'lac  
Make it bang lets go bring that back  
I blew they brain, nephew yea do that thang

[Spanky Danky:]

Living life in the maze it's amazing  
So high I can levitate it's crazy  
I feel like I'm the nigga in the matrix  
I'm sipping codine I feel like I'mma patient  
I stay dosed down off a medical blunt this ain't new  
Cop a que I blow it with lil Snoop  
Blowing smoke out the roof hoes know we the truth  
Get the bitch loose than I make her do what it do  
Put the hole on the crew word to [?]  
I'm chopping real game, other niggas is ghost  
When I pass by the bitch she gon' know we the truth  
[?] gang green and we're devoted to you  
We brought base in your face for proof  
The realest nigga out yo give me the juice

[West West Cuh:]

They never hate a nigga when he spittin' the truth  
I gotta keep it real gotta stick to my roots  
Tu-Tune in you know my slang  
Me and my niggas doing our thing and we all gon' win  
Fucking these models and fucking they friends  
Got more hoes than Snoop and prince  
Pimpin' nigga, look at my hands  
Gold rings on my fingers  
Young nigga and I'm hella dangerous  
Like a lethal injection, ballers on it  
Yea that's me section, getting money  
Yea that's the only objection  
Call me everywhere so I see my reflections  
West West, hold it down for Texas  
Yellow diamonds on my necklace  
Pretty bitches getting naked  
Young nigga living reckless  
Like 21 guns for protection  
Bla, bla

[Spanky Danky:]

Been done with that fast life  
So it was on to the thug life  
Ain't no bet, but I could never love my wife  
Like I love my life I never love ya twice  
I fell in love one night still lost in the days in a major way  
I be blazed for days, like Johnny  
Mobbing in the facin' lane it's my hobby  
We savvy, real nigga say savvy  
Looking for them bitches take them at a track meet  
Deep dig bandit she run into my canyon  
Dappin' blowing like a candle  
Savage, whippin' in the valley  
Real OG I'm nothing like my daddy  
Few kids on the way I'm happy  
Raw dog, and I'm learning with a passion  
Ohh, didn't y'all go to school  
I'm reachin' and preachin' and teachin' to you  
All in my business I'm feeling like Snoop  
But I'm more like Pac learn a life lesson but I might get shot  
I'm spreading the message that's all that I got  
We pray for progression and stick to the plot  
I'm feeling like yoda my knowledge is hot

I see myself changing the world  
Because my thoughts are so opposite of the norm  
So I will have to change the world  
Or I will have to be changed by the world
