

# Snoop Lion, No Guns Allowed (ft. Drake & Cori B)

Money makes a man, and that's a crime  
If we all were rich, we'd spend more time  
With our daughters and sons, they're losing their minds  
We all feel hurt, here's mine? hear me now

No guns are allowed in here tonight  
We're gonna have a free for all, no fight  
I wanna get lost in the crowd in here tonight  
I need to hear my thoughts, turn the music up loud

[Snoop Dogg:]

Let the music play, me no want no more gunplay  
When the bodies hit the ground, there's nothing left to say  
We don't want to see more innocent blood she'd  
We don't want to more youth dead (come hear me now)

No guns are allowed in here tonight  
We're gonna have a free for all, no fight  
I wanna get lost in the crowd in here tonight  
I need to hear my thoughts, turn the music up loud

[Drake:]

News from back home, it's when it hurts to be gone  
Two more young names to be carved out of stone  
One summer day that went horribly wrong  
Got my dog on the phone, cryin' and sayin' to leave 'em alone  
But I'm not leaving his side, I know that somebody died  
Somebody's child, some people duck down and some hide  
Some people just cannot react in time  
Bullets do not choose a victim, it's the shooter that picks 'em  
They just can't wait to get you in the system  
The district attorney could use a conviction  
Told you no guns in there, you didn't listen  
Life is so heavy with that on your soul  
Dedicate this to Cheyenne and Josh  
And pour something out for the lives that they stole ? 416?

No guns are allowed in here tonight  
We're gonna have a free for all, no fight  
I wanna get lost in the crowd in here tonight  
I need to hear my thoughts, turn the music up loud
