

# Snow Patrol feat. Martha Wainwright, Set Down Your Glass

Just close your eyes  
And count to five

Let's craft the only thing we know into surprise

Set down your glass  
I painted this

To look like you and me forever as we're now

And I'm shaken then I'm still  
When your eyes meet mine I lose simple skills  
Like to tell you all I want is now

You sing and I'm killed  
I'm just not the same

As I was a year ago and each minute since then

My jumper tears  
As we take it off

And you say you'll sew me good as new and I know you will

And I'm shaken then I'm still  
When your eyes meet mine I lose simple skills  
Like to tell you all I want is now
