

So Many Dynamos, Yes, Yes. A Thousand Times

It takes a lot of courage to be a coward.
It takes a lot of pills to make you feel alright.
If this is something that will make you feel much better
then it's recommended that you take it twice a day.
It's fitting to be tired when this is the only life that you've got.

Never run away, save your breath for
Trying to explain why you were so
Scared to lose.
