

# Sofia J, A taste

When you find someone you know their heart is true

When you find this one you'll know just what to do

Like a breeze, your love came easy

Suddenly you came around and caught my eye

Now I'm alive

Look deep in eyes now can you feel it

Make this moment last forever steal it

Pull me close

Wanna feel your breath upon my face

Put those lips right up to mine

Give me a taste

La la la la la

Everyday I wake up you are on my mind

I go about my day and I'm just wasting time

I go crazy for you baby

Waiting for my moment I can see you smile

Now I'm alive

Look deep in eyes now can you feel it

Make this moment last forever steal it

Pull me close

Wanna feel your breath upon my face

Put those lips right up to mine

Give me a taste

Look deep in eyes now can you feel it

Make this moment last forever steal it

Pull me close

Wanna feel your breath upon my face

Put those lips right up to mine

Give me a taste

Look deep in eyes now can you feel it

Make this moment last forever steal it

Pull me close

Wanna feel your breath upon my face

Put those lips right up to mine

Give me a taste
