

# Solange Knowles, I Used To

verse1:

i still remember the first time i met you  
a nice december night i went to  
a lil' party with my gurl 'cause she  
told me w'd have a good time but not expected  
to get to met the one i see over and over in my dreams  
that would be you my use to be baby  
i use to think of you as the only one for me

chorus:

i use to think of you  
more than anythin' else in this world  
you use to tell me no one else could ever fit  
in the place your gurl  
but me, it use to kill me not to see your face  
i use to, now thats all i can say  
is i use to baby

verse2:

sittin' in my bed just lettin' my head  
go through all the great times we shared  
go to the movies and so frequently  
just wanted to be ion your arms  
remember the time when you gave me the bear  
with the message that i was always on your mind  
am i on your mind? right now  
is that how you felt at the time  
is the how you use to feel

chorus:

i use to think of you  
more than anythin' else in this world  
you use to tell me no one else could ever fit  
in the place your gurl  
but me, it use to kill me not to see your face  
i use to, now thats all i can say  
is i use to baby

Brige:

all those words that you said  
do they mean anythin' now  
that you'd always be there  
your not here so how could  
it be true all i can say is i use to

chorus:

i use to think of you  
more than anythin' else in this world  
you use to tell me no one else could ever fit  
in the place your gurl  
but me, it use to kill me not to see your face  
i use to, now thats all i can say  
is i use to baby
