

# Solid Harmonie, When We Kiss (Missing You)

It was late one night and we had a fight  
It seemed like nothing was going right  
You turned around and you walked right out the door  
Now it's not the first time it's not the last  
I know all about your checkered past  
And we've played this game one thousand times before

Do you remember the night I can see it so clear  
All the sweet little things that you said in my ear  
There were promises made but I think you forgot what you said  
There's a real fine line between love and hate  
And I'm not the type who just sit and wait  
I've made up my mind I can't wait for you anymore, ok?

Chorus

When we kiss - ooh ooh ooh ooh ooh I get such a rush  
It feels like this - so perfect when you give me love  
And when we touch - ooh ooh ooh ooh ooh I'll forgive again  
It means so much - oh girl I really miss when we kiss

So many days go by and I miss you so - if it were up to me I'd never let you go  
You're the only true love in my life and I want you to know  
All this passion and pain I think I'm going insane  
You've got nothing to lose and so much to gain  
If you leave me today who's to say you might leave me again

Do you remember the night I can see it so clear  
All the sweet little things you say in my ear  
There were promises made but I think you forgot what you said  
There's a real fine line between love and hate  
And I'm not the type who just sit and wait  
I've made up my mind I can't wait for you anymore, you got it?

CHROUS (repeat to fade)
