

# Soluna, Hey Hey, You You

I don't wanna be the one you touch  
I don't wanna be the one you love  
I'm never gonna be the one you need  
These are things that I can't be  
I'm not denying that I sense  
Something more than just friends  
But I've already got a man  
So when I'm standing next to you  
You gotta respect that he's not you  
And understand that I can't do  
What your asking me to

Hey hey, you you  
I figure it's true true yeah yeah  
You know what you do to me, it's crazy  
I'm someone else's baby

Hey hey you you, your making me  
Hot hot, stop stop  
Before we go farther than I want to  
Hey, you don't make me choose

You're gonna lose

Maybe in a different place or time  
I would have made you mine  
But the reality is this  
I love the man I'm with  
Yes, I know there's energy  
I feel between you and me  
But if your gonna make me choose  
him and you there's no contest  
Between his love and your bed  
You see I thought it was over but  
There really no choice

Hey hey you you  
I figure it's true true, yeah yeah  
You know what you do to me, it's crazy  
I'm someone else's baby

Hey hey you you, your making me  
Hot hot, stop stop  
Before we go farther than I want to  
Hey, you don't make me choose

Hey you  
I figure it's true,  
You're making me so crazy  
I'm someone else's baby  
Hey you, it's true...

Hey hey, you you  
I figure it's true true yeah yeah  
You know what you do to me, it's crazy  
I'm someone else's baby

Hey hey you you

Before we go farther that i want to  
Hey , you don't make me choose

Hey hey you you, your making me
