

# Sonata Arctica, Love

Oh I love the face you try to hide in your hands, we are in love  
Oh I love the snow angels we make hand in hand, we are in love

Give me the stone you're hiding within  
Shimmering, frozen, all it does is make me feel the cold  
Rules don't apply, gravity lies  
The moon gently smiles when we slightly sway while I sing

How long we have been dancing ?  
You are all I see ...

Oh I love the smile you try to hide in your hands, we are in love  
Oh I love the sand angels we make hand in hand, we are in love

Summer in bloom, lovers in swoon  
Never believed I also could walk in the air like a fool  
The greatest of stories, heavenly bliss  
Now and forever may sometimes end with no kiss

Now we wonder are both crazy  
getting into this ...

Oh I love the face you try to hide in your hands, we are in love  
Love the way you get older with me day by day, we are in love  
Oh I love the snow angels we make hand in hand, we are in love  
And I love how this love makes us strong day by day, we are in love

We are in love  
We are in love  
We are in love  
We are in love
