

# Sonic Syndicate, Flashback

Sands of time stream through my fingers  
Chasing lost days of a dead dream  
And I don't care if we lose it all tonight

Cause I'm not sure anymore if it ever happened  
It feels so unreal

(Chorus)

Don't close your eyes what if all disappears  
Am I better off all alone?  
The truth is more then your brain can handle  
I won't hate you anymore

First time I saw my father's tears  
I knew there was still hope for me  
Now share your brain so I can upload some hate  
If you saw me now would you pray for me?  
Still I'll keep doing the same mistakes

Cause I'm not sure anymore if it ever happened  
It feels so unreal

(Chorus)

Why does it feel like god spent more time on me?  
I burned all the bridges  
But the moment I met you they where all rebuilt again  
Rebuilt again

Don't close your eyes...

(Chorus x2)
