When it rains  
When it rains  
When it rains  
The children don't play

When it rains  
When it rains

When it rains  
I gets the machine to get the engine of your past memory  
Don't forget

The children won't play  
It's raining outside  
You got to  
You got to decide  
About that time  
About that time that you were right  
Don't forget  
Don't forget the one who gave you the engine of your memory  
Do trust  
In love or fly for free  
Don't forget the memory

Shhhhhhhould

Don't fly away  
It rains today  
The machine of your memory  
I saw it walking down the street today  
It smiled and said "blue and gray"
