## Sophie Ellis-Bextor, Take Me Home

Take me home, take me home I know another place to be Take me home, take me home You deserve a girl like me Come on I know somewhere You can unwind We can just disappear Now's the time Take me home, take me home Only fair I get my way Take me home, take me home Oh it's going to happen anyway I know what's good for you

Don't pass me by I will look after you

You'll be fine

I'm in heaven I'll show you heaven it's so much heaven

let's make a move

lets leave this world behind

I know you approve by the look in your eyes

I'm in heaven I'll show you heaven It's so much heaven

take me home take me home

I will show you where to walk

take me home take me home

baby let the people talk

we'll get away from here

I'm reading your mind

We can just disappear

now's the time

I'm in heaven, I'll show you heaven take me home

Oh, take me home

Oh, take me home

In this moment one night with you

all alone with nothing to loose

let's make a move

let's leave this world behind

I know you approve by the look in your eyes

I'm in heaven I'll show you heaven it's so much heaven

Take me home, take me home

Now's the time to follow me

take me home

come and live what ought to be

take me home take me home
