

Sorry Boys, Evolution (St Teresa)

St Teresa:

My heart is drumming at such a slow pace
You better go admire the landscape
My heart is drumming at such a slow pace
You better go admire the landscape

Choir of Angels:

Nothing can stop that bloody evolution
For humankind all that whining
Has no meaning, it's not crucial

Nothing can stop that bloody evolution
For humankind all that whining
Has no meaning, it's not crucial

St Teresa:

I don't know the next step of evolution
I don't know the next step of evolution

Dear God I smell a burning home
Before you pierce my heart with the fiery arrow
My heart is drumming at such a slow pace
You better go admire the landscape

Choir of Angels:

Nothing can stop that bloody evolution
For humankind all that whining
Has no meaning, it's not crucial

Nothing can stop that bloody evolution
For humankind all that whining
Has no meaning, it's not crucial

Lord:

True love can stop that bloody evolution If anyone feels like fighting
Do join the White Flag Crusade
