

# Soul Coughing, Circles

When you were languishing in rooms I built to foul you in  
And when the wind set down in funnel form and pulled you in

I don't need to walk around in circles  
walk around in circles  
walk around in circles  
walk around in

dont need to walk around in circles  
walk around in circles  
walk around in circles  
walk around in

When the ghostly dust of violence traces everything  
And when the gas runs out just wreck it, you insured the thing

I don't need to walk around in circles  
walk around in circles  
walk around in circles  
walk around in

dont need to walk around in circles  
walk around in circles  
walk around in circles  
walk around in

doomp dah doomp dah doomp  
doda doiada doi  
x4

But I can't sigh now that you made the move  
It has gone and gone to dogs, lay down on the floor

For the right price I can get everything  
Slip into the car, go driving to the farthest star

I don't need to walk around in circles  
walk a..in circles  
walk around in circles  
walk around in

dont need to walk around in circles  
walk around in circles  
walk around in circles  
walk around in

dont need to walk around in circles  
walk around in circles  
walk around in circles  
walk around in...
