

Spice Girls, If You Wanna Have Some Fun

At the party after the show
I see a face I wanna get to know
(Wink wink, nudge nudge - tell me do you like the rude stuff)
Show me how you're gonna make your move
Boy you know you gotta lot to prove
(Wink wink, nudge nudge - are you man enough?)

You got the message, you felt my stare
And now you're walking from over there
I ain't that easy, I'll make it hard for you
(Oooh, I'll show you how)

I know you wanna have some fun
Track me down, and get my number
You could be the one (something on your mind)
I know you wanna have some fun
Track me down, and get my number
You could be the one (something on your mind)

Now you're standin' real close to me
I feel your heat, you wanna get with me
(Wink wink, nudge nudge - tell me do you like the rude stuff)
I love the feeling wanna make it right
Babe, I'm gonna keep ya up all night
(Wink wink, nudge nudge - are you man enough?)

Why don't you tell me how you unwind (ooh)
And if you open I'll blow your mind (ooh)
I'll take you places you've never been before (ooh)
(Do you wanna go, hoo!)

I know you wanna have some fun
Track me down, and get my number
You could be the one (something on your mind)
I know you wanna have some fun
Track me down, and get my number
You could be the one (something on your mind)

I know you wanna have some fun
Track me down, and get my number
You could be the one (something on your mind)
I know you wanna have some fun
Track me down, and get my number
You could be the one (something on your mind)

Come and get the fun
Cos you know I'll give you some
Just you and me, crazy
You know I'll be the one
(Wink wink, nudge nudge - tell me do you like the rude stuff)
Feel me, and read me
In every single way
So we're only getting started
You know we're gonna play
(Wink wink, nudge nudge - are you man enough?)

Come on and tell my how you unwind (ooh)
And if you open I'll blow your mind (ooh)
I'll take you places you've never been before (ooh)

If you want to have some fun (something on your mind)
If you want to have some fun (something on your mind)

I know you wanna have some fun

Track me down, and get my number
(Is there something on your mind)
You could be the one (something on your mind)
(You could be the one, you could be the one)
I know you wanna have some fun
Track me down, and get my number
(Fun, track me down and get my number)
You could be the one (something on your mind)
(You could be the one, you could be the one)

I know you wanna have some fun
Track me down, and get my number
(Have some fun, track me down and get my number)
You could be the one (something on your mind)
(Are you having fun, are you having fun)
I know you wanna have some fun
Track me down, and get my number
(Track me down and get my number)
You could be the one (something on your mind)
(Are you having fun, are you having fun)

I know you wanna have some fun
Track me down, and get my number
You could be the one (something on your mind)
(Are you having fun, are you having fun)
I know you wanna have some fun
Track me down, and get my number
You could be the one
(Are you having fun, are you having fun)

I know you wanna have some fun
Track me down, and get my number
(Is there something on your mind)
You could be the one (something on your mind)
(Are you having fun, are you having fun)
I know you wanna have some fun
Track me down, and get my number
(Me down and get my number)
You could be the one (something on your mind)
(Are you having fun, are you having fun)

I know you wanna have some fun
Track me down, and get my number
(ooh, yeah, ooh)
You could be the one (something on your mind)
(Are you having fun, are you having fun)
I know you wanna have some fun
Track me down, and get my number
(Track me down)
You could be the one (something on your mind)
(Are you having fun, are you having fun)
