

# Spitalfield, Tampa Bum Blues

You're standing in line for attention  
That you're never gonna get.  
With all of the talent you have,  
You've never done much with it.  
All of your friends have been asking  
If you're alive and where you've been;  
Or if you forgot all about them  
While sleeping hard and staying in.

[Chorus]  
Yeah! Don't play around,  
Don't play it down.  
If you've got something to say,  
Just say it!  
If you've got something to say,  
Just say it!

All of the time that you spent on  
Planning out how you would quit...  
And what you get out will depend on  
Exactly what you're putting in.  
You're talking in circles now  
(Your reasoning is wearing thin).  
How can you catch a free ride  
If you never chase after it?

[Chorus x4]

If you've got something to say.
