

Splendid, What's Good In Goodbye

You are checking out
Leave the ship
Let the future slip
And now you slide
Like a soap from my fingertips
It is a shame that we are gonna throw it all away
We would be set
If gave it just another day
Do you recall
How I used to make you feel
How the depth of my kiss
Was a big deal
We can talk all the night
As it will make sense
I would like to know
If it is where the story ends
You got to let me know

What is good in goodbye
When it is a part of a lie
What is good in a lie
When you are not by my side
Every time you hang out
You leave me in doubt
Tell me why
What is good in goodbye

We have built a home
On a ground so shaky
You are in a hole
You fill it up
With empty space
You are on withdraw
When you had it in our hands
You got to let me know

What is good in goodbye
When it is a part of a lie
What is good in a lie
When you are not by my side
Every time you hang out
You leave me in doubt
Tell me why

Find peace of mind
That you left behind
Then you will know why

What is good in goodbye
When it is a part of a lie
What is good in a lie
When you are not by my side
Every time you hang out
You leave me in doubt
Tell me why

What is good in goodbye
When it is a part of a lie
What is good in a lie
When you are not by my side
Every time you hang out
You leave me in doubt
Tell me

What is good
What is good
What is good
What is good in goodbye
What is good in goodbye

Every time you hang out
You leave me in doubt
Tell me why
What is good in goodbye
