

Splsher, I'm Going (Feat. Melika)

I played with your heart
I will not practice in the future
flirt as fast as you shoot a gun
I will never know how
You defeated me with my own weapon
apparently it was your time

Now I feel like
I'm the one with power
Nothing gonna break me

I am going
Going
Going
I am going to change the pace of life

The pieces were depoloyed
but everething can change now
We are like neverelardless hope
life's written in the stars
but some stars just explode and
it's like a loud ticking timebomb
