## Spock's Beard, Love Beyond Words

## SNOW:

I see a boy who watched his father Be beat to death right on the living room floor As he watched through the door - You watched through the door

Now you're a young man filled with anger You know your life on earth could mean so much more Don't you know what it's for, I think you know what it's for

To love beyond words - (Love beyond all words) - Love beyond words

## THE KNIGHT:

Now I somehow have understanding Like I've never had before in my life Do you know what that's like, I think you know what it's like

To love beyond words - (Love beyond all words) - Love beyond words To love beyond words - (Love beyond all words) - Love beyond words To love beyond words - (Love beyond all words) - Love beyond words
