

# St. Vincent, Los Ageless

In live senseless  
the way will never come  
in love ..  
the mothers  
not the young

But I can keep running nowhere  
can keep running waha  
o, waha

the love ..  
hang above the bar  
burn the pages  
on unwritten memoir

But I can keep running nowhere  
can keep running waha  
o, waha

How can anybody have you  
How can anybody have you and loose you  
How can anybody have you and loose you  
not loose the mind too  
How can anybody have you  
How can anybody have you and loose you  
How can anybody have you and loose you  
not loose the mind too

the last days  
of a sunset stupid stars  
girls on cages  
are playing my guitars  
but I cannot leave  
I just follow my hood in my car

in those..  
the ways they never breathe  
they build the ..  
till the don't know how escape  
but I cannot leave  
I just follow my hood to see  
just to see

How can anybody have you  
How can anybody have you and loose you  
How can anybody have you and loose you  
not loose the mind too

oh my love  
you really didn't know  
I am still in my secret ...  
and I keep  
I can keep running waha  
o, waha

How can anybody have you  
How can anybody have you and loose you  
How can anybody have you and loose you  
not loose the mind too  
How can anybody have you  
How can anybody have you and loose you  
How can anybody have you and loose you  
not loose the mind too
