

Stan Bush, Fire In My Heart

Some things are temporary, some things change
Some things you never know are just fading away
Sometimes something gets a hold of you
Like you got hold of me

I stood in darkness and I watched you leave
I shut it out and I refused to believe
Cause there's a fire here that's burnin' bright
Some lonely night you'll see

I got a fire in my heart
That is never gonna die
You say you're never comin' back
But I never said goodbye
I'll keep alive the flame
With a fire in my heart

Now every night I'm lyin' here awake
In the candle light I see your face
I can't believe you'd throw it all away
Cause I just can't let it go

I got a fire in my heart
That is never gonna die
I'm the kind who falls in love
And never says goodbye
I'll keep alive the flame
With a fire in my heart

Woo Ohh
Woo Ohh
Ohhh Oh

I got a fire in my heart
That is never gonna die
You say you're never comin' back
But I never said goodbye
I'll keep alive the flame
With a fire in my heart

That is never gonna die
I'm the kind who falls in love
And never says goodbye
I'll keep alive the flame
With a fire in my heart
